The Spanish Army in Catalonia will be considerably reinforced against the next Campaign, for which purpose new Levies are making in all Parts of this Kingdom. We have an account from *Genoa*, by Letters of the 25th of January, That the Spaniards had made two Sallies with good Success, beating the Enemy from some of their Works, and killing divers of them.

Milan, Febr. 23. Our Governor is returned from *Turin*, and has appointed a general review of the Forces in the Service of this State. The Letters from *Piedmont* say, the French have quite demolished the Fortifications, as well of the Citadel as Town of *Pignerol*, and the Troops that were in Garrison there, are marched away.

Genova, Febr. 24. By Vessels come in here from *Marseilles* we are informed, That the French are fitting out several Ships at *Thoulon*, which are said to be designed for *Catalonia*, to carry Provisions and Ammunition thither for the use of their Army.

Venice, March 2. There are come to the *Lido* about 1200 new raised Soldiers, and 1000 more are expected in few days, who will be sent to the *Levant* with the Convoy that is now preparing here, and may be ready to sail by the middle of this Month. The rest of the Troops, that are raised in *Germany* and *Italy* for the Service of this Republick, will be likewise sent away as fast as they arrive here, and with these Reinforcements 'tis proposed the Venetian Army in the *Morea* will be made up to 20000 Men. The last Advices from thence say, Signior *Contarini* was cruising in the *Archipelago* with a Squadron of Men of War. They write from *Rome*, That the Pope has ordered his Gallies to be fitted out with all Expedition, in order to return to the *Levant*, for the Assistance of the Venetians; and that he has writ to the Great Master of *Malta*, to hasten the departure of the Gallies of that Order for the same Service.

Vienna, March 6. Frequent Consultations are held at this Court about the Affairs of the War; and 'tis resolved to reinforce the Imperial Army in *Hungary*, that it may be in a Condition to act Offensively the next Summer. The Officers are called upon to have their Troops compleat by the end of the next Month; and Magazines are provided in several Places near the *Danube*. The Letters from the Frontiers give an account, that 400 Men of the Imperial Garrison in *Brod* on the *Sava*, had made an Incursion into the Country near *Belgrade*, and had taken a Convoy of 120 Wagons laden with Provisions, after defeating 300 Turks that Guarded them. The Envoy of *Moscow* who has resided some time at this Court, is gone home; and the Minister the Emperor intends to send thither, will set out very soon; The Advices from those Parts assure us, the Preparations for the

War against the *Tartars* are very great; and that the Czar intends to take the Field in the beginning of *May*. Letters from *Constantinople* of the 5th of January, give an account, That the Sultan was come to that City from *Adrianople*, and that soon after his arrival he was taken dangerously ill, but was recovered; That 'twas expected there would have been publick Rejoicings made for the Birth of his Son, as is usual, but the want of Money had obliged that Court to avoid such an Expence at this time. The Turks are much alarmed by the Preparations of the *Moscovites*; and the Captain *Bassa* was gone into the *Black Sea* with a Fleet of Gallies and other Vessels, having on Board 8000 Soldiers, and a great quantity of Provisions and Ammunition, to supply the Turkish Garrisons on that side.
